Superintendent Hotchkiss's statement

Superintendent Hotchkiss's statement follows:

'Immediately on learning that Mr. Morgan had acquired this stock, I called upon him personally and requested a statement as to his intentions concerning the same. He replied that in acquiring the stock he had but a single purpose—namely, to prevent its being sold to different individuals, and thus make it impossible that at the expiration of the present voting trusteeship. tion of the present voting trusteeship this great interest could be used to the detriment of policy bolders. He stated further that he desired the co-operation further that he desired the co-operation of the insurance department in working out a plan whereby the stock—which means the control of the company—would be safeguarded in the interest of the policy holders, and that I could assure Governor Hughes that no steps to that end would be taken by him save with the concurrence of the insurance department.

"Later in the day I had a talk with Mr. George W. Perkins of J. P. Morgan & Company, who reiterated what Mr. Morgan had said, and stated that that gentleman desired shortly to take up with the insurance department the matter of so placing the control of the Equitable stock outside present or any future financial situation in New York or in the country, which would end for all time dangers which lurk in an individual holding, such as that held by Mr. Hyde prior to the insurance investigation, or a trustee holding, such as that which has recently been in effect.

"In any such plan which I may approve of, the policy holders of the Equitable may rest assured that their interests will be the sole consideration and will be fully protected."
